

CNC machining technology training (numerical control technology professional project-based teaching reform materials)

Filesize: 6.72 MB

Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Camille Larson)

CNC MACHINING TECHNOLOGY TRAINING (NUMERICAL CONTROL TECHNOLOGY PROFESSIONAL PROJECT-BASED TEACHING REFORM MATERIALS)

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 275 Publisher: Machinery Industry Pub. Date :2009-06-15 version 1. This book includes basic articles. process papers ready. programming articles. operation processing part of chapter 4. is divided into 10 units. 45 a training program. Among them. the chapter describes the basic aspects of CNC machining technology. the basics; chapter describes the process to prepare CNC machining process analysis. CNC machining and tool selection. fixture and workpiece positioning and basic knowledge of common testing tools; chapter describes the programming of CNC machining manual programming (FANUC Oi. SINUMERIK 802D system) and CNC automatic programming (Master CAM); chapter describes the operation of CNC machining lathes. machining centers and CNC EDM machine. EDM wire cutting machine operations processing. The book with the Ministry of Labor and Social Security vocational qualification standards. with many years of teaching experience of teachers written in. Theoretical knowledge to be enough textbooks for the degree. emphasizing the abilities. training programs listed in the contents of a simple and easy to teaching. in line with the requirements of vocational education. This book can be used as key vocational schools and vocational schools in CNC technology. mold design and manufacturing. machinery manufacturing and automation of professional practice of teaching materials. but can also provide a reference for relevant technical staff. Contents: Introduction The Basics 1 unit of CNC machining technology basics. training purposes and requirements of two. a basic knowledge of three CNC machining. CNC machine tools category four. CNC machine tools and composition of the working principle five. six CNC machining of basic terms. the real training process to prepare the contents of chapter 2 unit analysis of a CNC machining technology. training purposes and requirements of two....
