The Coming of the French Revolution (Paperback)

By Tom Stammers

Macat International Limited, United Kingdom, 2017. Paperback. Condition: New. Language: English . Brand New Book. Georges Lefebvre was one of the most highly-regarded historians of the 20th century - and a key reason for the high reputation he enjoys can be found in The Coming of the French Revolution. Lefebvre's key contribution to the debate over what remains arguably one of history's most contentious and significant events in history was to deploy the critical thinking skill of evaluation to reveal weaknesses in existing arguments about the causes of the Revolution, and analytical skills to expose hidden assumptions in them. Rather than seeing events as driven by the aristocracy and the bourgeoisie - which then lost power to the urban workers - as was usual at the time, Lefebvre deployed years of research in regional archives to argue that the Revolution had had a fourth pillar: the peasantry. Painting the upheaval as complex and multi-layered - while still privileging a predominantly economic interpretation - Lefebvre provides a compelling new narrative to explain why the French monarchy collapsed so suddenly in 1789: one that stressed the significance of a `popular revolution in the rural countryside.

Reviews

It is one of the best books. Yes, it can be performed, nevertheless an amazing and interesting literature. You may like the way the author publishes this eBook.

A top quality eBook as well as the typeface used was interesting to see. It usually fails to charge an excessive amount. Once you begin to read the book, it is extremely difficult to leave it before concluding.
