Any concern which docs not lay aside, at least 5 per cent of the total of its plant if new, and apply the same at intervals toward the renewal and improvements, will find itself at the end of twenty years in a position not able to compete with success with modern equipped concerns, and it will be necessary to make radical changes at great-expense calling for new capital. When Depreciation Begins It is often stated that there is no depreciation during the first year of running; that the machinery will do better work after it is limbered up and adjusted than when it is set to work. As a matter of fact, depreciation does begin immediately although it may not be perceptible. After the first year, depreciation is charged sometimes at a uniform rate of 5 per cent over all the machinery,...
