John Wiley and Sons Ltd, United Kingdom, 2002. Paperback. Condition: New. English and 1964/ Special ed.. Language: English . Brand New Book. Simple programming expertise is an essential part of many forms of data collection and analysis for modern linguists and related language professionals. Programming for Linguists: Java™ Technology for Language Researchers is a practical introduction to programming using the Java™ programming language, a full-powered language with complete graphics capability that can be run on any computer. Programming for Linguists includes over one hundred carefully constructed sample programs that introduce new concepts simply but also accomplish tasks necessary for anyone who works with language as data. Many of these programs can be used immediately, with minimal or no modification. The text is accompanied by exercises, and all of the programs are available at [u.arizona.edu/~hammond](http://u.arizona.edu/~hammond).
